

XXIX INTERNATIONAL WOMEN'S CONFERENCE "WOMEN CHANGING THE WORLD"

23 – 24 November 2023

THE THEME OF THE CONFERENCE: "SCIENCE FOR WOMEN – WOMEN FOR SCIENCE"

THE CONFERENCE IS ORGANIZED WITH THE SUPPORT OF THE SAINT-PETERSBURG GOVERNMENT, LEGISLATIVE ASSEMBLY AND THE WOMEN'S UNION OF RUSSIA

By decree of the President of the Russian Federation, the years 2022-2031 are declared the Decade of Science and Technology. Initiatives, projects and events of the Decade are aimed at strengthening the role of science and technology in solving urgent problems of the country's development, the most important of which is attracting talented young people to the field of research and development. Solving this problem within the framework of the initiative: "Science for the whole Family" is provided with activities for family leisure dedicated to science and technology; creation of routes for popular science tourism throughout the country; popularization of modern scientific knowledge and technological achievements through artistic forms and means of creative industries, etc. The success of solving such socially significant tasks set for the current Decade of Science and Technology will largely depend on the degree of participation in the events of the Decade of socially active women, the implementation of their initiatives and projects, to the discussion of which the XXIX International Women's Conference "Women changing the World" is devoted.

The conference, the theme of which in 2023 is "Science for Women – Women for Science", will be held on November 23-24, 2023 at the Mariinsky Palace in a hybrid format with the participation of more than 700 people.

Among the most important issues on the agenda of the Conference, the theme of which in 2023 is "Science for women – women for science", are:

-Development of scientific directions related to improving the quality of life of women, families, children, and the elderly. Demographics, statistics, forecasts

- The active role of women in the development of science. Achievements and obstacles, ways to overcome them, reflection in the media
 - International scientific cooperation, attraction of the "soft power".
- Traditionally, the conference is attended by leading politicians, government and public figures, experts, entrepreneurs, scientists from the regions of Russia, including Donetsk, Lugansk and Crimea, countries of the Far and Near abroad.
